

Eggle LA Standard '93

Pickups are neck and middle -
Kent Armstrong STCR-1
Bridge
Kent Armstrong STHR-1

Early Kent Armstrong's used a
different cable colour coding.
This changed around '95 by my
best estimate to reflect the
more universal standards and
followed the colour coding of
DiMarzio pickups

post '95 cable colours

output - red
earth/ground - dk.green
lead coil in- white
trailing coil out - black

pre '95 colours

output - pink
earth/ground lt. green
lead coil in - white
trailing coil out - blue

for clarity, white wires are
shown as off white against a
thin drop shadow.

solder together and
cover with heatshrink
